

Manuel – Zombie

I may not remember this tomorrow

And I will never drink again, because I promised to you

Do one thing for me

If I'm not here, tell everyone I was here

Come with me **baby girl**

You're on the baby mama list

This party is dead, and so is my name on the crypt

Krr - Pow

You're my bro when you've had enough to drink

Zero negatives and **two liters of vodka**

You were my medicine, my heart is in pieces

Missing you is killing me

Because of you, baby, I'm like an **undead**

I won't step on the brake, I'm not Berki

This is a test here, bring along your besties

She's jumping on me now, like a dolphin

Although I don't want anything, but she likes it

You're not a **wifey** type

And luckily I'm not like a husband

A cross is hanging on her neck, but she's a **hypocrite**

A cross is hanging on her neck, but she's a **hypocrite**

Alone, alone, I wanna be **alone**

Alone with you, but I can't do anything

Alexander McQueen and the Fendi

Okay, okay I get it in the morning, but for how long?

I have to go, the stage is waiting, I'm getting drunk

I wanted it and still do, her heart is rough

I don't deserve love from you

Everything I did, burned into my brain

I've got ADHD, PTSD whatever you want

I'm from **hell**, don't save me

I'll sleep a little, I hope I won't wake up

This road is cold

0-24h just the stu

R.I.P. the woo

And R.I.P. to Juice

Come with me **baby girl**
